

**Contractor Test Completion Certification for
Plumbing Systems
(RCO 108.8)**

Instructions:

In accordance with RCO 108.8, advanced notice of the test schedule shall be given to the building official. If their schedule permits, the building official may require that the tests be conducted in the presence of the building official or the plumbing inspector.

Upon completion of the system installation, required tests shall be conducted by the contractor's representative and witnessed by the property owner or the owner's representative and, if required, the building official or the plumbing inspector. All leaks and/or defects shall be corrected and the system shall be re-tested prior to final system acceptance and issuance of the certificate of occupancy.

This certificate shall be filled out by the contractor's representative and signed by both the contractor's representative and the owner's representative. Insert N/A in all unused lines. Attach additional sheets, as necessary, to provide a complete record of the testing (i.e. for multiple story buildings). Copies of this test certificate shall be made available to the building department, health department, owner, and contractor. It is understood that the signature of the owner's representative on this certificate in no way prejudices any claim against contractor for faulty material, poor workmanship, or failure to comply with the Ohio Plumbing Code and/or the conditions of the contract.

Property Name & Description:

Owner's Name: _____

Owner's Representative: _____

Property Address: _____

Contractor: _____

Contractor's Representative: _____

Certificate of Plan Approval Number: _____ [RCO 105.5]

Are approved plumbing plans and manufacturer's installation instructions on site? [RCO 107.7]

Yes _____ No _____

If no, explain: _____

Was the plumbing system installed in accordance with the approved plans and the manufacturer's installation instructions?

Yes _____ No _____

If no, explain _____
